Diviation of the Competence Center Marine of Minimax Fire Solutions International GmbH

Dear customers, dear business partners,

In order to align our international maritime business even more closely with your needs, we will be reorganizing as **of December 1, 2024**. We are dividing our specialist expertise in the Maritime division into the following Competence Centers:

- Competence Center Marine: civil vessels
- Competence Center Navy: sovereign ships (navy, coast guard, police)
- Competence Center Offshore: Offshore platforms
- Competence Center Maritime Service & Maintenance: Service and spare parts

With this new structure, we are strengthening our specialization and can provide you with even more targeted and efficient support in every area. Everything remains the same for you:

- Existing contracts and business relationships remain unchanged.
- Your familiar contact persons will continue to be available to you.
- Our usual reliable implementation of your orders remains guaranteed.

Below you will find an overview of our new Competence Centers and the relevant contact information:
